DECLARATION OF JAMES FALLON UNDER 37 C.F.R. § 1.132 Address to: Assistant Commissioner for Patents Washington, D.C. 20231	Attorney Docket Confirmation No.	UCAI.263 3865
	First Named Inventor	S.J. Reid
	Application Number	09/129,028
	Filing Date	August 4, 1998
	Group Art Unit	1647
	Examiner Name	S.L. Turner
	Title	<i>Methods for treating neurological deficits</i>

Dear Sir:

1. I, James Fallon, declare and say I am a co-inventor of the claims of the above-identified patent application. I directed others and personally performed the research leading to the invention disclosed and claimed therein.

2. I have read the Office Action dated May 6, 2002 in this application and understand that the Examiner has rejected pending claims 45-54 on the basis that they are allegedly anticipated by Reid et al. ("Radial Migration of Subependymal Cells in the Adult Rodent Forebrain," Society of Neuroscience Abstracts Vol. 22, Part 3, 26th Annual Meeting, Washington, D.C., November 16-21 (September 17, 1996); referred to herein as "the Reid Abstract").

3. I am a co-author of the Reid Abstract.

4. I understand that pending claims 45-54 of the instant application were rejected over the Reid Abstract. The Reid Abstract named S. Reid, S.M. Patel, and J.H. Fallon as authors.

5. Reid and I conceived of and reduced to practice the invention disclosed and claimed within this application. Patel is not an inventor, but was named as a co-author due to technical contribution he provided. Specifically, Patel prepared and stained tissue sections. Patel did not contribute inventive input with respect to the invention disclosed and claimed in this application.

6. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title XVIII of the United States Code, and that such will false statements may jeopardize the validity of the application or any patent issuing thereon.
